

QUICK RESPONSE TO PORTO RICO'S APPEAL. THE HURRICANE SWEEPS UP THE COAST.

Secretary Root's Call for Aid Is Patriotically Headed by the Country and Money and Food Are Pouring In.

The Storm Has Spent Its Fury in the West Indies and Is Now Reported Off the South Atlantic States.

A Big Cargo of Supplies of All Kinds Will Leave New York To-morrow on the McPherson for San Juan.

Contributions of New Yorkers.

Wholesale Clothiers, money, food or clothing.

THE West Indian hurricane, which spent its chief fury on Porto Rico, destroying several thousands of lives on the island and causing vast suffering and destitution, has passed north-eastward to the east coast of Florida.

Yesterday afternoon the storm centre approached Jupiter, Fla., and the National Weather Bureau ordered hurricane signals as far north as Charleston, S. C.

Special warnings have been sent to the ports of the South Atlantic coast for shipping to be wary of severe northeast gales and high seas.

The country is responding patriotically to Secretary Elihu Root's call for help, and the Mayors of all the big cities are hastening to collect money, food and clothing.

New York was a busy theatre of relief endeavor yesterday.

Acting Mayor Randolph Guggenheimer issued an eloquent call for help, which met with quick response.

The army people here are loading the transport McPherson with vast quantities of lumber, provisions and clothing. The ship will sail Monday at noon.

Clara Barton, through the Journal, quickly offered her services.

To-day may bring a sad chronicle from our own seacoast. The storm is one of the worst in the history of wind horrors that gather in the Caribbean.

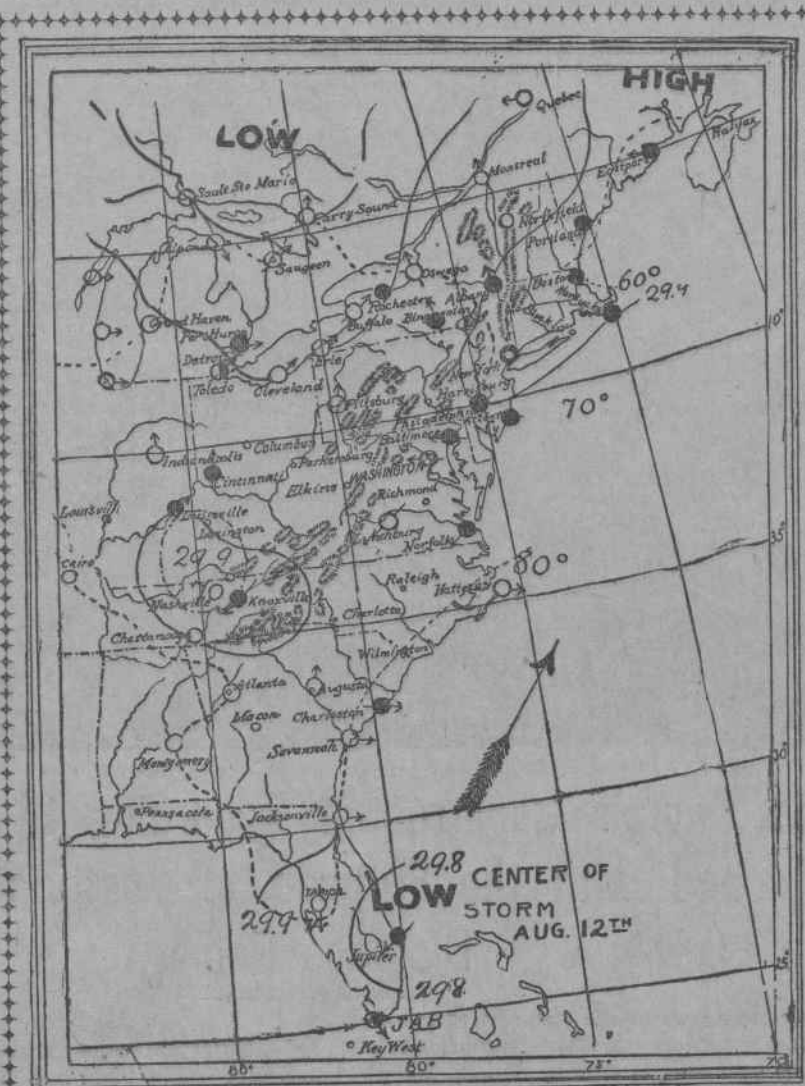

Already Pensacola, Fla., is in the blast, and the fierce wind is marching with undiminished force northeastward. The naval authorities express no fear concerning the safety of the new cruiser *New Orleans*, which put out to sea from San Domingo for the purpose of daring the waves and riding out the storm.

NEW YORK QUICK TO AID THE PORTO RICANS.

New York responded quickly to the call of the Government for aid to the stricken Porto Ricans yesterday, and one of the first acts of the day was the issuance of an eloquent plea by Acting Mayor Randolph Guggenheimer.

Mr. Guggenheimer held communication with Secretary Root and with Mayor Van Wyck, who is out of town, and early set the philanthropic machinery of the city in action.

At the same time the part of the army which is in New York was busy loading the

Map Showing the Centre of the Hurricane Yesterday. Late reports show that the storm is raging off the Florida coast and may sweep the lower Atlantic States.

big transport McPherson with lumber, building material, food and clothing. Mr. Guggenheimer issued his proclamation in response to a telegram from Secretary of War Elihu Root, such as the new official sent to all the Mayors of the great cities. The acting Mayor sent him the following reply, after he had issued the appeal:

"Your telegram received. I shall immediately issue an appeal to the citizens of New York for contributions for the relief of the sufferers by the cyclone in Porto Rico."

Shortly after the Acting Mayor's proclamation had appeared in the afternoon papers, responses began to be received.

Subscriptions Come Promptly.
H. B. Hollins & Co., of Wall street, head a subscription list of \$1,000. James Speyer, of Speyer & Co., bankers, telegraphed the Acting Mayor from Newport that he had mailed him a check for \$1,000.

William R. Corwin, secretary of the Merchants' Association, notified Mr. Guggenheimer that the association had at its disposal \$1,000, which it would like to donate to the relief fund.

Later Secretary Corwin talked to the Secretary of War over the telephone and obtained permission to use the office of the Secretary of War for the purpose of collecting contributions.

The Christian Herald, of New York, contributed \$1,000. The San Juan Ice and Refrigerating Company, of No. 130 Pearl street, contributed a quantity of provisions.

Stedman & Kelly, of No. 110 Park street, contributed 10,000 pounds of potatoes. Nathan Pijour, of No. 24 Nassau street, sent a check of \$100 to the Secretary of War.

Free Transportation Offered.
Free transportation of supplies was offered by the New York and Porto Rico Steamship Company on the steamer Evelyn, which sails for Ponce August 18.

H. C. Armstrong, of the Continental Tobacco Company, sent the Journal a check for \$10.

Mr. A. Marcher, of No. 110 East Eighty-seventh street, left a bundle of clothing and shoes at the Journal office. H. Peters, of No. 100 East 100th street, left a bundle of clothing at the Journal office.

The action of an excursionist from Providence in holding up Willie K. Vanderbilt, Jr., at the point of a camera last month precipitated the crisis. It was said then that the millionaire would find a way to stop all excursions.

The natives say that the cottage aggregation controls every line of transportation leading to this resort, and that their influence in that direction will eventually shut Newport off from the rest of the United States.

However this may be, there will be no excursions to Newport to-morrow, and great is the lament therefor, for the season has not been one bristling with the shrews of bank accounts for the natives.

SAMOAN COMMISSION HANDS IN ITS REPORT.
Three Governments Must Now Decide Whether They Will Accept Its Suggestions.

Washington, Aug. 12.—The report of the Samoan Commission was received at the State Department to-day.

Its essential features include the abolition of the kingship and the substitution of an administrator, or Governor-General, agreed upon by the three powers.

The report was accompanied by a private letter from United States Consul at Honolulu, Mr. B. F. Jones, summarizing up what had been done and giving light on personal phases of the inquiry.

Now that the report is in hand it remains for the three governments to determine whether or not the recommendations of the commission are to be accepted.

Proclamation of Acting Mayor Guggenheimer.

City of New York, Office of the Mayor.
Reports from Porto Rico show the most terrifying and devastating results from the fierce cyclone which visited that island the 8th inst. Hundreds of lives have been lost; hundreds have been severely wounded. One hundred thousand families, it is now thought, were reduced to a state of absolute destitution; food supplies have been destroyed and a vast number of the people of this new possession of the United States are facing starvation, illness and death. The full extent of this fearful tragedy is as yet unmeasured.

The appalling reports have been confirmed by the Governor-General of Porto Rico, and the Secretary of War of the United States at the suggestion of the President, has called upon the Mayors of the large cities to appeal to the people for aid to the sufferers in this catastrophe. The need of the stricken people is great, the necessity urgent.

The opportunity is now offered the people to show their patriotism and their kind heartedness to the people of Porto Rico, who so willingly accepted the sovereignty of the United States and who were so glad to have their country share in the blessings of free government.

Now therefore J. Randolph Guggenheimer, Acting Mayor of the city of New York, do urgently appeal to the ever generous citizens of the metropolis to contribute to the fund for the relief of the sufferers in Porto Rico and do all they can to extend to the stricken people of the island material assistance and earnest sympathy. Contributions should be sent to the office of the Mayor, where they will be speedily forwarded through the proper channel to their errand of relief and mercy.

In witness whereof I affix my seal of office.

RANDOLPH GUGGENHEIMER.

city of Arroyo and Guayama. The Mayors of Cincinnati, Baltimore, Philadelphia, Jersey City, Cleveland, Chicago and twenty others notified the secretary by telegraph that they have issued proclamations and the citizens were busy gathering supplies.

Edward J. P. Murphy, proprietor of assembly rooms, at Ninth street and Sixth avenue, Brooklyn, writes to the Journal that he will donate the use of his hall to persons desiring to get up an entertainment the funds from which will go to the suffering Porto Ricans.

PROGRESS OF THE BIG STORM UP THE COAST.

Forecaster Emery, of the Local Weather Bureau, made public the following dispatch yesterday afternoon, received from Chief of the Bureau Williams, of Washington: "Information received from the U. S. Hurricane centre approaching Jupiter, Fla. Hurricane signals are ordered as far north as Charleston, S. C. Special warnings sent to South Carolina, Georgia and Florida coast districts of severe northeast gales and high seas."

The weather map issued yesterday by the Weather Bureau indicated the low barometric pressure off the east coast of Florida, and that the storm centre was travelling northeastward, and that all of the State and southern Georgia may to-day be in the grasp of the wind.

Course Is Out at Sea.
The course of the storm is out on the sea, so that there is more danger to shipping between the northern cities and Cuba and the West Indies than to ports on the South Atlantic States.

The weather reports from Havana, Santiago, San Juan, the Barbadoes and Kingston indicate no abnormal disturbances, either indicated by pressure or wind speed, indicating that the speed of the storm had spent itself in the West Indies and that the further danger must be looked for to the north.

In the United States some prophecy of coming trouble was indicated by weather stations east of the Mississippi river. The weather report of yesterday morning said: "During the past twenty-four hours there were in normal condition as far south as Demerara, British Guiana, its southern terminus."

The inland lines of San Domingo and the island of Puerto Rico are being reconstructed. The weather Bureau at Washington was unable to tell whether the storm, after leaving its present centre on the coast of Florida at Jupiter, would continue to-day to the northeast, along its direction up to this time, or curve and pass back to the Gulf.

Track of the Storm Unknown.
The Weather Bureau at Washington was unable to tell whether the storm, after leaving its present centre on the coast of Florida at Jupiter, would continue to-day to the northeast, along its direction up to this time, or curve and pass back to the Gulf.

Cable communication with Nassau, in the Captain Falls, "including Major Hall, of the Sixteenth Pennsylvania. We were treated with exceptional courtesy. The freedom of several clubs was tendered us as well as of the messes of the various volunteer regiments of London. When the stand of colors were presented to the Duke of Connaught, and after the ceremonies were presented to the Queen."

He said the wedding would take place next autumn. "Mamma is a Manxwoman and Sir Roger is a Manxman," she said, "and I am a fine looking man, and I shall be proud of my new papa."

In "Why Smith Left Home," was also on the passenger list with her daughter, Miss Jennie Yeaman. Mrs. Yeaman's daughter, Miss Jennie Yeaman, was not affirmed to deny her reported engagement to Sir Roger Llandilo, but Miss Jennie at once admitted that it was true. She said the wedding would take place next autumn.

SUFFERING WOMEN.

Tired, Nervous, Aching, Trembling, Sleepless, Bloodless.

Pe-ru-na Renovates, Regulates, Restores.

VICE-PRESIDENT ROXA TYLER.

Roxa Tyler, Vice-President of the Illinois Woman's Alliance, speaks in high praise of Pe-ru-na to restore tired nerves and weak body. In a letter written to Dr. Hartman from 910 East 90th street, Chicago, Ill., she says the following:

"During the past year I gradually lost flesh and strength until I was unable to perform my work properly. I tried different remedies, and finally Pe-ru-na was suggested to me. It gave me new life and restored my strength. I cannot speak too highly of it."

It may safely be said that nearly all affections of the mucous membrane are a direct result of catarrh. But, when one comes to consider the numerous organs of the body and the many names which are applied to catarrh of these organs, the difficulty becomes apparent.

Unless one realizes that the mucous membrane is a continuous surface, and that at whatever point it is affected it is the same disease, and practically the same treatment will cure it; unless this fact is borne in mind a serious complication is raised. The United States has so many women who rarely see a well day; who, though not bedridden, continue to all their lives. The debility of American women is a fact which all the world knows, and debility is generally one of the symptoms of catarrh of some organ.

Mrs. H. D. Amoss writes: "I received your book on Female Ills and commenced the use of your medicine at once. I took five bottles of Pe-ru-na and two of Man-alin. I feel like a new woman. When I commenced taking Pe-ru-na I could hardly walk across my room; now I am doing my own work."

Mrs. Col. Hamilton, of the Seventh Regiment, Ohio Volunteer Infantry, and whose residence is at 239 G. O. O. O. street, Columbus, O., writes the following about Pe-ru-na: "I can bear testimony as to the merits of your remedy, Pe-ru-na. I have been under the treatment of two doctors, but never received any benefit until I commenced taking your medicine. I am now well and able to do my own work. I wish every woman who is suffering as I was would send for one of your books on Gynaecology. It is a God-send to suffering women. May God bless you and spare you many years to relieve women who are suffering as I was. I am anxious for every woman who is suffering as I was to know what your medicine did for me."

The treatment for catarrh of any and all parts of the body is a thorough course of internal treatment with Pe-ru-na. The treatment for catarrh is no different in one case than in another, except such slight difference in dose as may be necessary to make it suitable for different ages and physical idiosyncrasies.

Send for "Health and Beauty," written by Dr. Hartman for women only. Address Dr. Hartman, Columbus, O.

merits of your remedy, Pe-ru-na. I have been taking the same for some time, and am enjoying better health than I have for some years. I attribute the change to Pe-ru-na, and recommend Pe-ru-na to every woman, believing it to be especially beneficial to them."

A healthy woman is becoming more and more rare. There are very few women in the United States who have not catarrh in some form. A woman free from catarrh is rare. But com-

NATIVES OF NEWPORT THREATEN REVOLT.

Edict "No Sunday Excursions" Has Gone Forth, and They Rebel.

Newport, R. I., Aug. 12.—The feeling of animosity that exists between the people who live here all the year around and the villa contingent from New York is smoldering near to the surface, and there is likelihood of a breakout at any time.

It is the complaint of the natives that the wealthy New Yorkers are running Newport to suit themselves, and that instead of being the benefit that their money would indicate, they are a positive hurt to the city.

The latest outbreak against the cottagers was caused by the announcement in the local papers to-day that there will be no more Sunday excursions to Newport from New York and New London.

The Boston excursions, which were a feature last year, have not been run at all this season, and the natives say that if the cottagers are allowed to swing their influence to the full nobody will be allowed to visit the city unless he has a pass countersigned by the Vanderbilts and R. F. Wilson.

The Sunday excursions to Newport brought, the natives say, an average of \$2,000 to \$3,000 in cash to the town every time they landed. But they did not suit the wealthy dwellers along the cliffs.

and although they had only a couple of hours in the town, they managed to get a look at everybody reputed to be the owner of \$5 million dollars or more. Their comments

NOTED PASSENGERS ON THE ST. PAUL.

Senator Sewell Leaves on a Tug--Mrs. Yeaman's Happy Fate.

It was a distinguished as well as diversified list of passengers that the American liner St. Paul brought to New York yesterday from Southampton. Society folk rubbed shoulders with athletes as they walked ashore, and actors, lawyers, theologians, pathologists and scientists mingled on the big pier.

One of the voragers was William J. Sewell, United States Senator from New Jersey, who returned with his family. They were not required to land at the pier, but were taken off at Quarantine on the steamboat Laura M. Starin by three hundred enthusiastic Jerseymen.

Ex-Speaker Thomas B. Reed observed Sewell's rescue from the sea side. Captain D. W. C. Ellis, Adjutant of the Seventh Regiment, who was the guest in London of Sir Howard Vincent, of the Queen's Westminster Rifles, and was presented to Her Majesty, was content with a more quiet home coming than the doughty Congressman. He landed from the St. Paul at the pier. Captain Falls, with Captain Francis Landon, was sent to London by Governor Roosevelt to be present at the centennial celebration of the British Volunteers. Captain Landon and Mrs. Landon are making a tour of Switzerland.

There were about eighty representatives present from various countries," said
